Summary

Versatile Software Developer leveraging over 8 years of finance and management experience to help collaborate with multiple disciplines. Efficient and resourceful with development and proven success in meeting goals. Passionate about user experience and collaborating on innovative and creative products.

Technical Skills

Front-end: HTML5, CSS3, Javascript, Canvas.js, ReactJS, SCSS, TypeScript

Back-end: Node.JS, Express, REST API's, GraphQL, SharePoint Services, AWS, Google Cloud Services

Tools: VS Code, Git, GitLab, Jira, Zenhub, PostMan, Terminal, Gulp, Figma, NPM

Professional Experience

ANSOL, Inc.

Remote, CA 2021-Present

Software Developer

- Led initiatives to refactor legacy code and deploy to production for over 10k users in the U.S. Navy.
- Implemented a robust internal wiki for our tools which included technical documentation along with setting guidelines for the development team to streamline our deployments.
- Successfully developed several greenfield projects for the DoD using JavaScript, React.JS, and TypeScript.
- Hosted several meetings with clients to gather requirements and break down our tools to non-technical stakeholders.
- Became instrumental in the onboarding process while also mentoring junior software developers on the team.

YearOne

Los Angeles, CA 2021-2021

Lead Mentor

- Led a group of peers with discussions on a wide range of topics related to the tech industry.
- Mentored junior software developers on their skills while providing support to the YearOne community.

Hack For LA

Los Angeles, CA 2020-2021

Frontend Developer

- Responsible for implementing new features to the HFLA website, refactoring legacy code, and collaborating across multiple disciplines.
- Successfully launched features to production while working remotely with designers, developers, and project leads.

JPMorgan Chase Bank

Lakewood, CA 2011-2019

Private Client Banker 2017-2019

- Successfully created and grew relationships with clients and small businesses in excess of \$10MM. Led a financial literacy initiative and hosted seminars within my area to help my team grow its understanding of finance.

Manager on Duty 2013-2019

- Moved into a leadership position and assisted in creating a strong, productive work culture that resulted in substantial asset growth. Mentored bank employees while helping ensure daily operations for the branch ran as expected.

Personal/Relationship Banker 2011-2017

- Successfully established a pipeline of clients and assisted the immediate area with basic lending needs and financial planning. Collaborated to source new clients for business partners and investment advisors.

Education

UCLA Extension | Full Stack Certificate

Westwood, CA 2019 - 2020

Southern New Hampshire University | BS in Computer Programming

Remote, 2017 - 2021
